Mahendra Shah's month of December Kalasampoot

## Shadowbox Art

Components of Shadowbox

Shadowbox Art belongs to the Arts and Crafts category, involving the placement of 2-dimensional or 3-dimensional readymade or crafted art objects within a box-type frame. A pictorial background is crafted before securing the object using glue or nails. These shadowboxes can be either made like picture frames or bought in various shapes, sizes, and depths, with options for hinged or unhinged designs. Consider gifting a shadowbox featuring an idol of your choice for any occasion to a family member or friend. shown some examples of shadowboxes created by the artist.
